ADA ADA - The Access Board Effective 1992, the Americans with Disabilities Act (ADA), a federal law, prohibits disability-based discrimination by states, local governments, and private entities. The ADA specifically requires that "each service, program, or activity conducted by a public entity, when viewed in its entirety, be readily accessible to, and usable by, individuals with disabilities". The Access Board provides resources, information and guidance related to the ADA, including insight on developing public spaces like rooftops that meet ADA guidelines. Unity meets or exceeds these standards via ASTM-F-1951-99.

ASTM ASTM - The American Society for Testing and Materials (ASTM) is the scientific and technical organization chiefly responsible for developing standards for testing different materials. ASTM introduced Standards for Consumer Safety Performance Specifications for Rooftop Applications designated as D3161, C518-98. It is the standard that establishes minimum acceptable performance specifications

for most types of surfacing, flooring and pavers on rooftops. Unity meets or exceeds these standards as seen throughout our brochure.

ANSI ANSI: The American National Standards Institute (ANSI) has served in its capacity as administrator and coordinator of the United States private sector voluntary standardization system. ANSI facilitates the development of American National Standards (ANS) per 4474. It is this standard that establishes minimum acceptable performance specifications for most types of surfacing, flooring and pavers on rooftops. UNITY meets or exceeds these standards as seen throughout our brochure.

ECOCYCLABLE ECOCYCLABLE - Ecocyclable™ is defined as any product being used more than once (i.e. reusable) as the same, or different, recycled product. Unity's safety surfacing, flooring and paver products can be used in many different locations over and over again. We are the only manufacturer to receive such a prestigious symbol.

UL: The Underwriters Laboratory (UL) is a global independent safety science company offering expertise across five key strategic businesses: Product Safety, Environment, Life & Health, Knowledge Services and Verification Services. Their breadth, established objectivity and proven history mean they are a symbol of trust and enable you to help provide peace of mind to all. The 2218 principle has been met or exceeded by Unity as seen throughout our brochure.

USGBC - The USGBC (United States Green Building Council) via the LEED (Leadership in Energy & Environmental Design) is the nation's foremost coalition of leaders from across the building industry working to promote buildings that are environmentally responsible, profitable and healthy places to live and work. It is leading a national consensus for producing a new generation of buildings that deliver high performance inside and out. As a member of the USGBC program, using our products will help to achieve up to seven (7) LEED
