

Warranty

Due to the extreme durability of our safety surfacing, flooring and paver system, each and every product manufactured by Unity Creations, Ltd./Unity Surfacing Systems is backed by a full warranty to protect you and your investment from manufacturing defects. New “*extended*” warranties have also been added to further strengthen the guarantee of our products and services. In the end, we offer our customers exceptional value that is unmatched in the industry. Our warranty is specifically designed to assist architects, engineers, project managers and owners to maximize the cost and performance warranty benefits associated with our system. Contact Unity directly for more information. A written warranty is available upon request.

“Unity Surfacing Systems installed rubberized safety surfacing on our play area. Their crew worked diligently and completed the job within the time frame given. They left our play area immaculate and ready for the children. Since then Unity has been back to check on their work and was quite pleased with the results, as are we. Everyone at Unity Surfacing Systems was a pleasure to work with and I recommend them and their products highly.”

-Adrien Hood, Principal / Little School
