Dear Mr. Chouchessian,

1/13/02

Thank you for helping us create a safe and durable playground for our 16 pre-school children. We now have a sensible and beautiful area that will provide great fun for kids.

The gentlemen who came to upgrade our existing playground and install the new surface were friendly and professional and as anyone can see, they did a damn good job.

Please thank Mr. Chrisio from us, because he took an interest in making sure that our playground would be able to withstand daily use by so many children.

It is nice to know people who know how to help people and get the job done.

Thank you again,

Sincerely,

Carol Hubner, director
